

John:

I just wanted to say "THANKYOU" for the excellent training you have imparted to me during my recent "recurrent" session here in Colorado. Your assistance in getting me to do my best during the sessions proves that, "a good pilot is always learning." As a Flight Instructor for 43 years, a Check Airman for 5 years, an FAA Operations Inspector for 13 years, and a Pilatus PC-12 pilot for 11 years, this was the BEST, in aircraft training I have ever done! Your unique ability to teach in the real environment is much more realistic than flying an FTD at some other school. I will definitely recommend your services to other PC-12 pilots who I see and speak with in the future.

I look forward to additional recurrent courses with you in the years to come.

Best regards to a great Instructor.
